CENTRE FOR SCOTTISH PUBLIC POLICY www.cspp.org.uk

Media Partner:
newstart
the independent magazine for regeneration

The Centre for Scottish Public Policy (CSPP) is an independent think tank providing a focus for imaginative and innovative debate on the key issues facing Scotland. We aim to promote the development of public policy in Scotland by providing new thinking for our political institutions whilst challenging existing structures, systems and levels of public engagement. We do this by organising opportunities for politicians, policy thinkers and practitioners to meet and to learn from each other and to develop an understanding of relevant initiatives in other countries.

Key Programmes

Our programmes and activities focus on five priority issues for Scotland:

- City Regions
- Energy & Environment
- Public Service Reform
- Renewing Democracy
- Europe

Membership

CSPP is a not for profit organisation, reliant upon the generosity of our funders. There are a variety of ways in which organisations and individuals can support CSPP financially including programme funding, event sponsorship and membership.

Membership represents excellent value, offering many benefits & opportunities:

- Priority invitation to events
- Discounted or complimentary attendance at events
- Member-only networking policy events
- CSPP news bulletins
- Advance access to publications
- Voting rights at AGM.
